

# RLM50 Laser Distance Meter

Fast accurate measuring up to 50 metres. With the small size and soft grip rubber sections the RML50 is a very easy to use, robust tool.

## FEATURES

### 4 references for measuring

- From front end
- From back end
- From tripod 1/4 diameter screw
- From measuring pin for inaccessible places

### Very Easy to use

- Measure area volume or indirect measurement
- Memory function

## TECHNICAL DATA

Measuring range	0.052 - 50
Measuring accuracy (min)	+/- 1.5 mm
Measuring accuracy (max)	+/- 3 mm
Measurement time	0.5s (min) / 4s (max)
Laser diode	635nm, <1mW
Laser class	6
Laser diameter	6 mm @ 10m 30 mm @ 50m
Automatic switch off	5 min (tool) 30s (laser)
Battery usage	Approx 30,000 measurements

\*Depending on room illumination
