

DynaDrill™ | DD532 Rotary Hammer

Overhead drilling

Function

The Ramset DD532 Rotary Hammer, fitted with R Drive, the latest development in long life drill drive systems. The ideal Rotary Hammer for plumbing, air conditioning, fire protection, electrical and mechanical services installation. Where fast, efficient drilling into ceiling slabs with minimal operator fatigue is paramount, the DD532 is in a league of its own.

Features and Benefits

- Electro-pneumatic impact mechanism.
- In-built safety clutch providing operator protection.
- 180° adjustable side handle for left and right handed use.
- Sealed lubrication system for extended service intervals.
- Impact resistant polyamide case.
- Finger tip control for point start accuracy with variable speed adjustment.
- Service cover for easy cable and carbon brush exchange.
- Variable speed for accurate pilot drilling.
- Vibration dampening system for operator comfort.

Drilling Range

Drill diameter in concrete	5 - 26 mm
Drill diameter in steel	up to 13 mm
Drill diameter in wood	30 mm
Optimum drilling (concrete)	10 - 18 mm

Specifications

Rated input	720 watt
Rated output	400 watt
Rated speed	0 - 800 rpm
Impact rate	0 - 4000 bpm
Impact energy	3.3 J
Weight (without accessories)	3.3kg
Tool holder	R3 Drive

*Supplied complete with carry case.
